

Sophisticated communication made simple

Introducing the Xen Topaz

Empowered by Innovation

The Xen Topaz is the latest addition to the highly successful and popular Xen Business Telephone system family. For too long the most powerful and innovative phone systems have only been within reach of large corporations. With the Xen Topaz this is no longer the case.

Designed to satisfy the growing needs of small and medium businesses, the Xen Topaz is a professional, flexible and easy to use communications system at a price that makes perfect sense.

New developments on the Xen Topaz include:

- Automated attendant to answer incoming calls with a tailored message and press-button options to guide the caller to the most appropriate staff member.
- Up to 9 PSTN lines and 24 extensions, 16 additional lines possible with ISDN.
- The option of an 8 port integrated digital voice-mail with up to 15 hours of message time and broadcast capability.
- Hybrid analogue / key station ports maximise flexibility and cost efficiency.
- Future IP capability for the later release making this system future proof to protect businesses communications investment.

A choice of four stylish handsets

Xen Topaz's elegant sophisticated design delivers productivity and versatility to your work environment.

From the simplicity of a 6-button non-display telephone to the feature rich 12-button display with 64-button console, standard intelligent features can help raise productivity throughout your business.
